NUMBER 75.

SUCCEEDS JUDGE DAY

John Richards Appointed Circuit Judge of the Sixth District.

FORMER GOES TO SUPREME BENCH.

Henry Hoyt Selected For the Solicitor Generalship—Summary of Proceedings of the House and Senate.

Washington, Feb. 19.—The president announced the appointment of Judge Wm. R. Day of Ohio to be justice of the supreme court of the United States in place of Justice Shiras, resigned. The announcement also was made of the appointment of Solicitor General John K. Richards to the vacancy on the circuit bench of the Sixth circuit, consequent on the appointment of Judge Day to the supreme court. The appointment was at the request of Attorney General Knox and upon the indorsement of the justices of the supreme court.

The announcement also was made of the appointment of Assistant Attorney General Henry M. Hoyt to the solicitor generalship in Mr. Richards's place. This step is in accordance with the idea of promotion in the Civil Service. Mr. Holmes Conrad, when assistant attorney general under President Cleveland's second administration, was promoted to be solicitor general. The names of Judge Day, Mr. Richards and Mr. Hoyt were sent to the senate at once. The president also announced the appointment of Representative Page Norris of Minnesota to the new district judgeship in that state.

Bills were passed by the senate authorizing the Pennsylvania Railroad company to construct a bridge across the Allegheny river near Aspinwall, Pa., and authorizing the secretary of the interior to issue a patent to the city of Buffalo, Wyo., for certain tracts of lands. The Quay resolution, declaring it to be the sense of the senate that a vote on the statehood bill be taken prior to March 2, went over. A house bill was passed providing for the payment of claims of citizens of Virginia for damages to their property incident to the encampment at Manassas and the march from Camp Alder to Thoroughfare Gap, Va., during the war with Spain. The senate then went into executive session to consider the Colombian canal treaty.

There is a movement on among some of the friends of the statehood bill in the senate to couple the fortunes of the measure with those of the Panama canal treaty, and make the ratification of the one depend upon the passage of the other. The details of the plan have not come to light fully, but it is understood that the scheme is to menace the treaty by delay until an agreement to vote on the statehood bill can be secured.

In the House.
Washington, Feb. 19.—Without preliminary business the house proceeded with the consideration of the naval appropriation bill. When the paragraph relating to the increase of the personnel of the navy was reached an amendment was offered, which was defeated, to provide that the graduates of state nautical schools standing highest in their classes should be appointed midshipmen. An amendment was offered by Mr. Perkins (N. Y.) to make volunteer officers, who served in the marine corps during the war with Spain, eligible to appointment as captains on the marine corps staff. He said there were but two officers who would be eligible under this amendment. It was lost.

Crops in France.
Paris, Feb. 19.—The official crop report shows for winter wheat a sowing of 16,367,567 acres. The average condition for the whole of France is 70.5, compared with 69.9 last year. Oats show a total of 2,004,707 acres. The average condition is 65.1, compared with 64.4 last year. Rye shows a total of 3,398,465 acres. The condition is 74.4, compared with 77.5 in 1902. The average of 80 indicates "good;" 60 indicates "fairly good."

Bring In Heads of Killed.
Tangier, Feb. 19.—A dispatch from Fez dated Feb. 13 announces that a column of troops under the command of El Menebi, the Moroccan war minister, has defeated a section of the Hlala tribe. Many heads of the killed have arrived at Fez. Previous reports of the defeat of the sultan's troops by the Hlala tribe are now contradicted.

Jumped the Track.
Toronto, Feb. 19.—The Montreal express, westbound, on the Grand Trunk, jumped the track at Whitby Junction. All the cars left the rails, the engine alone remaining. The engineer, William Stewart, had his leg broken. Twenty passengers were more or less injured; none, however, seriously.

ROOSEVELT'S THREAT.

Extra Session If Canal and Cuban Treaties Are Not Ratified.

Washington, Feb. 19.—President Roosevelt will call an extraordinary session of the senate of the Fifty-eighth congress unless both the Panama canal and the Cuban reciprocity treaties are ratified at the present session. The president made this declaration of his intention to several senators, and he made it as emphatic and unequivocal as he was capable of making it. It is deemed likely by officials of the administration and by many senators that both treaties will be ratified before March 4, but the necessity for their early ratification is regarded by the president as so urgent, that in the event of the failure of either one or both at the present session, he will issue immediately his call for an extra session.

It is said that there are grave reasons of state why both treaties should be ratified as soon as possible. These have induced the president to make the announcement to senators of his determination.

A DARING JOB.

Carload of Passengers Robbed of Valuables by Two Young Men.

Los Angeles, Cal., Feb. 19.—Two unmasked men held up and robbed a carload of passengers on the Los Angeles-Pasadena electric line. Thirty-two passengers, half of whom were women, were forced at points of revolvers to surrender cash and jewelry to the amount of between \$500 and \$700. The robbers performed their work quickly but effectively. The car was held for 10 minutes. The men then left it and disappeared in the darkness. The hold-up was carried out in a way that marked the outlaws as old hands at the business. With revolvers in their hands, the robbers stood in the doors and, in foul language, ordered everybody to "dig up the coin and jewelry without any monkey business." Passengers who resisted were fired at, and one narrowly escaped being shot. Both highwaymen are described as young, smooth shaven, and dressed like laborers. The one who did the searching is described as not more than 20 years old.

Shut Off the Light.

Helena, Mont., Feb. 19.—There was an exciting scene in the senate chamber and a riot almost precipitated when some one cut the electric light wire leading into the capitol building for the purpose, it is charged, of stopping debate on a bill under discussion. After the break had been repaired Senator Kennedy charged that Janitor Curtis, who, it is said, was caught in the act, had been ordered to cut the wires by senators favoring the bill. The senate was in committee of the whole and had under discussion a bill providing for a change of venue in civil cases. This bill, which is said to have a good majority in the senate, has been bitterly fought by the Heinz people.

Fear Trouble With Venezuela.

Port of Spain, Trinidad, Feb. 19.—British naval authorities think there is more trouble ahead with Venezuela. They say that England is determined not to recognize any Castro blockade, and her war vessels will not hesitate to fire on ships or shore upon any manifestations of interference with British trade with Venezuela. No instructions have yet been received regarding the delivery of warships to Castro. It is believed here that nothing will be done until the terms of the agreement are received from Washington. The German cruiser Falke and the British warships Trihunc, Alert, Pantome and Columbine have arrived.

California Booming.

San Francisco, Feb. 19.—The final statistical reports of the bank commission for Jan. 1, 1903, show a state of financial prosperity in California that is believed to be unprecedented in the history of the nation. There are nine savings banks in San Francisco, with deposits of \$144,284,235 and 73,576 depositors, having an average deposit of \$831.24. In the 52 interior savings banks, \$53,728,277 is deposited. The 61 savings banks of the state of California aggregate the grand total of \$198,012,512, distributed among 284,952 depositors, with the unparalleled average of \$694.89 per depositor.

Big Verdict Against Venezuela.

Caracas, Feb. 19.—The supreme court rendered its decision in the suit brought by the heirs of Henry Rudloff, an American citizen, against the Venezuelan government for damages for the annulment of a concession given in 1892 to build a market in Caracas. Judgment was given in favor of Rudloff's heirs. Their claim for the large amount of \$700,000, to be paid by the Venezuelan government, was admitted.

St. Petersburg, Feb. 19.—As a result of a fire at Pultovka, in the government of Podolia, 12 persons have lost their lives and 200 houses have been destroyed.

POWERS NOW A UNIT.

Joint Note Drafted and Presented to the Sultan of Turkey.

DEMANDS INSTITUTION OF REFORMS.

Christians Must Receive Protection In All Portions of the Ottoman Empire—Note to Be Followed by Joint Action.

Paris, Feb. 19.—The Russian foreign minister, Count Lamsdorf, has communicated to the French government the fact that Russia received the last of the adherences of the European powers to the joint note to Turkey on the subject of reforms, thus making the action of the powers unanimous. He accordingly directed the Russian ambassador at Constantinople to proceed, in company with Baron Von Callee, the Austrian ambassador, to the sultan and present the joint note. It was at first intended to present the Austrian note first, but this was reconsidered in order to give added force to the joint personal presentation. It was also desired to secure the full adherence of Germany, which was somewhat conditional at first. The unanimous action includes that of Germany. The note as fully framed strikes out all reference to Macedonia, as it was considered that the designation of one part of the country by name would increase the anti-foreign agitation which the powers are seeking to check. The note is generalized, so as to cover all the localities where Christians reside, the only locality specified being the villages in northern Turkey in which most of the Christians reside. The protection of the lives and the complete safeguarding of the interests of the Christians form the chief features of the note.

In view of the unanimity of the powers, the officials here consider that the sultan is certain to accept the proposed reforms, but it is not intended to terminate the question with the presentation of the note. It will be followed speedily by further joint action, including sending consuls of the various powers throughout the Christian regions to see that protection is actually given and that the reforms are really carried out. The authorities do not hesitate to say that the note is only the first step in the plans of the powers for the betterment of the condition of the peoples under Turkish rule.

An official here said that while the United States was not concerned in the action directly, yet the protection demanded for all Christians would be indirectly beneficial to the American Christians in Turkey.

Carnegie's Gift to Philadelphia.

Philadelphia, Feb. 19.—A bill to enable Philadelphia to accept Andrew Carnegie's gift of \$1,500,000 for the erection of 30 branches of the free library was introduced at Harrisburg. The bill is in accordance with the plan adopted by New York city to meet Mr. Carnegie's gift to that city for branch libraries. As soon as it is passed and approved, it is expected that two or three branches will be erected each year, as little doubt is expressed that the gift of sites will keep pace with the number of branches that can be put up in the next 10 years.

Find Traces of Poison.

Kansas City, Feb. 19.—Mrs. Lattin, proprietor of the hotel where J. P. Siegel, the Burlington (Kan.) miller, died under mysterious circumstances, testified before the coroner's jury that Siegel told her just before dying that he had been chloroformed and robbed. The city chemist testified that an examination of the man's stomach had disclosed not only powdered glass, but a trace of chloroform. Mrs. Lattin at first denied any knowledge of the crime. The three bell boys who were arrested on suspicion were released.

Pope's Jubilee.

Rome, Feb. 19.—The pope's jubilee, or the twenty-fifth anniversary of his election, will be ushered in by a high mass in the Basilica, celebrated by Cardinal Rampolla. Later the pontiff will receive the cardinals and other dignitaries, who will present him with a gold tiara, a jubilee present of the Catholic world, which cost \$25,000. The Te Deum will be sung in the evening, and there will be a procession of all the Catholic associations.

Helena, Mont., Feb. 19.—Miss Anna Roscrans, daughter of the late General Roscrans, died in Helena after a brief illness, at the home of her sister, the wife of Governor Toole. For some time she had been engaged in writing memoirs of her father.

College Burns.

New York, Feb. 19.—Westleigh college, at Port Richmond, Staten Island, was totally destroyed by fire. Loss, \$80,000. Mr. Griffiths, one of the teachers, jumped from an upper story and broke both legs.

Hon. Harry O. Gordon, who will accompany the Cincinnati delegation to the tobacco fair here to-morrow, is spoken of as a Republican candidate for Governor of Ohio. He is the present Lieutenant-Governor.

Look at your calendar and you will observe an unusual thing occurring this month. Each day of the week occurs four times. This has happened but fifteen times in the last 132 years, remarks an exchange.

Lou Hafer, of Augusta, bought an old silver pitcher from a lady of that place for \$1, on credit. He took the pitcher and made \$19 in counterfeit money out of it, and then paid the lady with \$1 of this money. This led to his detection and a long jail sentence is staring him in the face.

Col. Ion B. Nall, Chairman of the State Committee on Agricultural and Horticultural Exhibits, has called the first meeting of his committee for Thursday and Friday, March 5th and 6th, at Louisville. Rules and regulations governing the collection of the various classifications under agriculture and horticulture will be adopted at this meeting for immediate promulgation, each sub-committee in every county in the State being furnished with them. The meeting will be held two days, because there is so much for the committee to consider and act upon.

"Way Down East," Wm. A. Brady's famous metropolitan success that is to be given at the Washington Opera House Wednesday, Feb. 25th, is a plain story of plain people. The central figure of the story is Anna Moore, who has a cloud on her past, embracing a mock marriage. Anna finds a home on a New Hampshire farm, the farmer's son falls in love with her, and then a simple plot unravels itself to a happy end. The play is pure and wholesome in tone, possessing a quaint humor and affording a lesson that is made acceptable and pleasurable in the receiving. Sale of seats at the opera house Monday afternoon at 1:30. Be on hand early for choice seats.

Speaking of the death of the late Mrs. Ann C. Owens, the Dover News says: "The deceased had a presentiment of death and had prepared the clothing in which she wished to be buried. Just a week to the hour before she died, she told a neighbor of a very strange dream she had. In the dream her deceased husband, who was a beloved and highly honored citizen, appeared to her, and she held a long conversation with him. The neighbor told her there was nothing in the dream, but the old lady said this dream haunted her, as her father appeared to her mother in a dream in the same manner just three weeks before the latter died, and she believed that her death was not far off."

His Dog Guarded His Body.

Lloyd Sagaser, a citizen of Bourbon County, disappeared several days ago. A vigorous search was made for him for several days but no trace was found. One morning, a thirteen-year-old boy named Abe Jones, said to his father before breakfast: "'Jinks' (Sagaser's nickname) is dead. I saw him last night in a dream leaning against a wire fence in Mrs. Bedford's stubblefield near a log where we caught a coon." "Search was made," says the Paris Kentuckian, "in that direction and within a hundred yards of the spot specified by the boy he was found crouching down against the fence dead. His dog had come back to the house several times and howled in a peculiar manner and left again, and when the body was found the marks of the dog's paw was seen on his face, where he had tried to awaken him. As there were quite a number of hogs near the body it is supposed his dog had kept guard over him and prevented the hogs from mutilating his body."

HUNGRY AND COLD

Are Occupants of Homes Closely Invested by Rising Waters.

Vincennes, Ind., Feb. 19.—High water, which has turned to ice, and the bitter cold have brought destitution and much suffering in scores of homes in Embarras bottoms, south of here. Thousands of acres of land which last week were under water are now covered with ice and snow, and many homes are entirely surrounded by it. The Wabash river continues to rise and add to the destruction in the afflicted district, and the farmers are fighting against hunger and cold. Those who have not moved out of the low lands are prepared to do so on short notice. In some cases people are living in tents which they have pitched on the hillsides or on top of the levees. The ice had not been thick enough to bear the weight of a person and for the past three days it has been impossible for many people to leave home.

STRUCK BY A TRAIN.

Trolley Car Filled With High School Pupils Is Demolished.

OCCUPANTS FRIGHTFULLY MANOLED.

One Dozen Young Men and Women Dead and More Than a Score Injured In a New Jersey Crossing Tragedy.

Newark, N. J., Feb. 19.—A trolley car loaded with pupils on their way to the high school was run into at one Clifton-avenue crossing by a Delaware, Lackawanna & Western railroad train. Eight of the pupils were killed, four died of their injuries, the motorman of the car was fatally hurt and 30 or more occupants of the car were injured. Five of these were believed to be fatally hurt. Twenty of the injured passengers were taken to a hospital, and the others were able to go to their homes. The identification of the dead and injured was a difficult task, and was accomplished very slowly. The dead: Emily E. Scholl, Miss Mueller, Edith Fausk, Miss Viola Hill, Miss Webb, Alma Loehenberg, Maud Baker, Emily Weinbach, Levin Eastwood (died at city hospital); young girl, believed to be Miss R. Knight, died in the city hospital; Mabel Karschner of Cincinnati; died at hospital; Rosebud Cohn.

Immediately after the accident had been reported all the police reserves of the Second precinct were sent to the scene to keep back the crowd, which gathered almost immediately. The train which caused the accident was the Delaware and Passaic express.

When the motorman of the car saw the train he put on brakes with all his force. The car, however, slid upon the icy rails until the front platform projected over the tracks. A moment later the crash came. The pilot of the engine struck the front platform and tipped the car over. The pupils, by the force of the collision, were precipitated under the wheels of the engine. To some death came immediately; others lingered a moment in fearful agony, and then expired. A most heartrending scene was presented to the sight after the train had crashed into the car. Dead or injured children lay in all directions. Word of the calamity soon reached the authorities. In addition to the police reserves, every ambulance in the city was soon on the scene. The motorman's skull was crushed, and it is thought he will die.

The trolley car could not be stopped, although the motorman appeared to make frantic efforts to do so. The conductor of the trolley car, George Gould, said: "It is the custom for trolley conductors to leave their cars as this crossing is approached and as the cars stop, to run ahead and see if the track is clear. I should have done this had I not seen that the gates were lowered. Naturally, I concluded that the car would stop, and the first thing I knew of danger was when we went crashing through the gates."

The trolley car was one of the special vehicles which the North Jersey Street Railway company runs five mornings in the week for the special accommodation of high school pupils. It was crowded with young men and women from all parts of the city, many of whom had transferred from other lines.

Foot and Mouth Disease in Mexico.

Washington, Feb. 19.—Secretary Wilson said that the British government has received advice from one of its consuls in Mexico to the effect that the foot and mouth disease had broken out at San Luis Pototsi and that the department of agriculture, acting on the British representations, had directed Inspector Shaw, of the bureau of animal industry, to make a thorough investigation. Dr. Shaw is now in the neighborhood of the reported outbreak. Pending his report, the entry of live stock from Mexico has been interdicted. There are no official advice to this government to indicate the presence of the disease on the Mexican border.

Agriculture For the Negro.

Tuskegee, Ala., Feb. 19.—The Tuskegee negro conference held its "workers' conference." Among those present were: Edward W. Frost, Milwaukee; Dr. Charles F. McServie, president Shaw university, Raleigh, N. C.; W. F. Graham, John Mitchell, Jr., Richmond, Va.; President E. C. Brinson, state normal school at Hensgar; Rev. W. W. Ranley, Hartford, Conn.; President J. S. Hathaway, N. and I. Institute, Frankfort, Ky. The subject for discussion at the conference was the teaching of agriculture in its broadest sense.

EDITOR HARRY MCCARTY, of the Jessamine Journal, was given the Democratic nomination for the Legislature by acclamation. The people of Jessamine are to be congratulated on securing such a splendid all-round gentleman for Representative.

BECAUSE State Senator O'Brien, of Indiana, refrained from voting for Sunday base ball and thus killed the bill to sanction it, the Republican Senators of that State, by a party vote, adopted a motion of "censure and condemnation." Censure from such a gang is praise in the eyes of all good people. This is the same crowd for whose entertainment a prize fight was given.

It was brought out Wednesday in the trial of the case of Daniel E. O'Sullivan against the Louis Press Company that the Commercial got \$5,000 from the Republican Campaign Committee, and the Post and Dispatch got \$60,000 during the Goebel-Taylor campaign. Mr. Boyle G. Boyle, Managing Editor of the Post, admitted that his paper had supported the Republican ticket from the time of the Goebel-Taylor campaign.—Courier-Journal.

The Republicans of Kentucky have been paying big money for an "organ." The Dispatch has gone the way of all bad papers, but what must the people who have been swearing by the Post think of a paper that accepts money for its political influence?

It is practically settled now that Kentucky will have 5,000 square feet of space for its tobacco exhibit at the World's Fair. Mr. Frederic W. Taylor, Chief of the Department of Agriculture of the exposition, has promised Mr. Chas. D. Campbell, Chairman of the Tobacco Exhibit Committee of the Kentucky Association, to make that reservation for Kentucky. Mr. Campbell has appointed two sub-committees of his general committee, Messrs. Dan Peed, of Paris; and A. P. Barnard and Frank Harping, of Louisville, will pass on all burley matters before they are brought to the attention of the general committee, while Messrs. George Likon, of Mayfield and E. J. O'Brien and Joseph Robinson, of Louisville, will act in a similar capacity for dark tobacco.

JUDGE GROSSEUP, of the U. S. Circuit Court of Chicago, has granted a temporary injunction against the "beef trust," and his decision indicates plainly that he will make it perpetual. In his decision he refers to the nefarious methods of the "trust." "There can be no doubt," said Judge Grosseup, "that the agreement of the defendants to refrain from bidding against each other in the purchase of cattle is a combination in restraint of trade; so also their agreement to bid up prices to stimulate shipments, intending to cease from bidding when the shipments have arrived. The same result follows when we turn to the combination of defendants to fix prices upon and restrict the quantities of meat shipped to their agents or customers. Such agreements can be nothing less than restriction upon competition, and therefore combination in restraint of trade, and thus viewed, the petition as an entirety makes out a case under the Sherman act. It may be true that the way of enforcing any decree under this petition is beset with difficulties and that a literal enforcement may result in vexatious interference with the defendant's affairs. But in the inquiry before me I am not at liberty to stop before considerations. The Sherman act, as interpreted by the Supreme Court, is the law of the land, and to the law as it stands both court and people must yield."

There should be no let up in the prosecution of the members of this trust, as well as all other trusts. If they are subject to criminal prosecution it should be instituted. There is nothing that will put a check on the combines quicker than to land some of the men back of them in the penitentiary for long terms.

The Commercial Club of Augusta will attend the tobacco fair to-morrow in a body.

Dr. J. M. Frazee returned last evening from a tour of twenty-five or thirty counties in his canvass for Commissioner of Agriculture. He is greatly encouraged over his reception, and thinks his chances are exceedingly good. North-eastern Kentucky should roll up a big vote for him.

A WHITE SALE

Usually when merchants want to emphasize a special sale of any kind they offer to give more for the money than you can possibly get elsewhere. Now we propose to do just exactly the reverse. The lawns, dimities, organdies, laces and embroideries we will have on sale this week are so fine and sheer, in buying them you will get less weight and thickness than you could easily procure elsewhere for the same amount of money. All the desirable white fabrics are here—the best of each kind and the prettiest we could find. This spring and summer will be pre-eminently a white season. White shirtwaists and gowns will be more popular than ever. A sensible popularity it is. White fears neither sun nor wash.

Fashions for cotton goods are now assured and this is a good time for sewing—before the lassitude of spring and the rush of house cleaning. These are some of the favorite fabrics:

French Lawn, 48 inches wide, 50c. and 75c. yard.
 French Organdie, 68 inches wide, 25c. to \$1 yard.
 Swiss Muslin, 32 inches wide, 15c. to 50c. yard.
 Dotted Swiss Muslin, 30 inches wide, 25c. to 50c. yard.

French Nainsook, 45 inches wide, 15c., 19c. and 25c. yard.
 India Linen, 32 inches wide, 61c. to 25c. yard.
 White Pique, 30 inches wide, 15c. to 50c. yard.
 Fancy and Lace Striped Lawn, 30 inches wide, 81c. to 50c. yard.
 Mercerized Madras, 30 inches wide, 25c., 35c. and 50c. yard.
 Mercerized Yale Cloth, 30 inches wide, 35c. and 50c. yard.
 Irish Linen, 36 inches wide, 35c. yard.
 Fancy and Plain Dimities, 30 inches wide, 15c. to 50c. yard.
 Persian Lawn, 30 inches wide, 25c. yard.
 French Mull, 30 inches wide, 35c. yard.
 EMBROIDERIES, from the modest edging to elaborate skirt widths, ranging in price from 5c. to \$1.

Laces in Val, German Torchon, Point Anglaise, Point de Paris and Cheny. Match edgings and insertions various widths. Prices from 14c. to 50c. a yard.

The store is given up to the White Goods. Come now while stocks are full and choosing easy.

THE BEE HIVE

The Real Thing Now!

Let's welcome the cold wave and the snow. The cold weather purifies the air and makes healthful conditions, it freezes small streams and stops the river from rising. And the snow, the beautiful snow fertilizes the ground and makes good sleighing. Sleighing is good for you as well the livery stables. During the day be out in the air, it's very invigorating. Good cold, fresh air never made anyone sick. It's the cold nights that destroy your health. Keep warm at nights for that is the thermometer of health. A full line of warmers alway on hand. Blankets from 59c. to \$4.98 for our grand old Duchess. Comforts from 79c. to \$3.75.

SHOT AT ABERDEEN.

Ed. Bennington Probably Fatally Wounded by Charles Campbell.

Trouble Occurred Last Evening In Dispute Over a Trivial Matter—Particulars of the Affray.

Ed. Bennington was shot and probably fatally wounded at Aberdeen last evening shortly after 7 o'clock by Charles Campbell, who is night watchman on the ferryboat.

The weapon used was a .38-calibre pistol. Three shots were fired, two of them taking effect. One ball perforated the stomach, and the other lodged in the hip.

Mr. Bennington lives at Bethel, O., and was visiting his brother, Mr. Fremont Bennington, whose home is on Second street in the East End of Aberdeen. From the information at hand it seems there had been some trouble between the latter's family and the family of Mr. Campbell, whose home is in the same neighborhood. It seems to have been more of a petty quarrel in which the children were involved.

Last evening it is claimed as Mr. Campbell's children were on their way home members of the Bennington family interfered with them, and they returned and reported to their father. Mr. Campbell then escorted them to their home. As they passed the Bennington residence some warm words were exchanged by the parties to the quarrel.

Mr. Campbell started to return to the ferry, and he claims as he reached the Bennington premises a man stepped from behind a tree and asked if he had called him a vile name. Mr. Campbell replied that he had not and that he did not even know him. With that, it is said the man assaulted Mr. Campbell with a hoe and knocked him down. As he fell, Campbell pulled his pistol and fired three shots, with the result as detailed above.

Such is the information as learned from a relative of Mr. Campbell. Mr. Bennington's account of the affray may put another phase on the shooting. It is a deplorable affair.

Mr. Bennington was carried into his brother's home, and Dr. Laughlin summoned. The latter called in Dr. Taulbee, and the wounded man was removed to the hotel at midnight, where Dr. Taulbee, assisted by Dr. Laughlin, closed the wounds of the stomach and removed the bullet from the hip.

The operation was performed under unfavorable conditions, but Mr. Bennington rallied nicely and was still alive this morning. The chances, however, are against his recovery.

Mr. Bennington is thirty-four years old, single, a member of the Knights of Pythias and is a well-to-do citizen of Bethel.

Minerva Mail Route Will Not be Discon-
tinued.

[Dover News.]
The Minerva people did not like the
idea of losing their 'bus line between
that place and Maysville, and the line
could not afford to run without the mail,
so they petitioned the Postmaster Gen-
eral, asking him that the Minerva mail
be sent via Maysville as formerly and not
changed so as to come through Dover.
The request has been granted, and the
route between Dover and Minerva de-
clared off. A number of people were
preparing to make bids on the proposed
new route.

HICKS' HIT IT.

The Recent Blizzard Forecasted By the St.
Louis Weather Prophet—Predictions For Rest of Month.

In Hicks' forecast for February, the
first part of which we published, he
says: "A storm period to watch is from
about Sunday, the 8th, to Thursday, the
12th. * * * Violent rain storms may
be expected, with a boreal counterpart
in the form of a furious snow storm
and blizzard. The cold wave that would
naturally appear about the 11th may
possibly be retarded until after the
moon's passage over the celestial equator
on the 13th. But those who do not pre-
pare for hard, winter storms and a great
cold wave and blizzard between the 9th
and 16th of February, will, we fear, pay
a costly penalty. The final culmination
may not come before the 14th and 15th."

For the balance of the month he pre-
dicts as follows:

"The storm period extending from the
19th to the 23rd is covered by many dis-
turbance factors, as may be seen in the
storm diagram. Vulcan, mercury, venus

and earth, all combine with moon at
south declination at last quarter and in
apogee. This period during its opening
stages will bring change to quite warm
for the season, the barometer will fall to
unusually low readings, and heavy storms
of rain, wind and thunder will speedily
be followed by change to sleet and snow,
all winding up with stiff wintry gales and
a cold wave from the northwest. Much
danger may be apprehended at this and
other February periods, from the gorging
of streams and rivers by sudden floods
and the jamming of moving and crushing
ice. Look for several days of crisp and
freezing weather, after the storms of this
period pass off.

"The last three days of the month will
bring return of general storm conditions,
winding up on the 28th with electrical
disturbances and heavy rains in many
sections of the country."

On account of the stand taken by
Speaker Henderson and the Committee
on Rules of the House, there is a possi-
bility that the measure granting over
\$6,000,000 additional to public buildings
authorized at the last session will not
become a law before Congress adjourns

The Building Committee of the Ken-
tucky Exhibit Association spent two
weeks wrestling with the twelve designs
submitted by architects in the Kentucky
building competition before it arrived at
a decision. In all there were 102 differ-
ent drawings presented, including all the
different elevations, floors, etc., and the
committee had its hands full in reaching
a conclusion in a fortnight. All of the
designs submitted were strikingly origi-
nal and no mistake would have been
made had the decision been reached
blindfolded. The drawing chosen as the
best of the whole number will not be
made public for several days, because
the committee will doubtless suggest
several changes therein. It does not
want the public to see the design until it
is drawn exactly as it will appear at the
World's Fair. Then every paper in the
State will be furnished a large cut of the
perspective and Kentuckians can ap-
plaud the result of the labors of the
Building Committee.

Over \$2,000 was subscribed for State
work and about \$5,000 was pledged for
county organization at the State Y. M.
C. A. convention at Lexington.
